

Description

The Flatliner system includes a range of straight and twisted bits. They are used in combination with the pulling bars. The Straight Bits can be bonded very close to each other increasing the traction force. The Twisted Bits are bonded further apart and are used on soft car panels.

Benefits

- The turned bits are used to weld on edges

Scope of delivery

- Packaging unit: 100 pieces

Technical data

Dimensions & Weight

L x W x H	5,50 cm x 2,2 cm x 1,0 cm
Weight	0,7 kg
