PUNCH & MANDREL Ø 24 (PRESS-IT 2.0)

Description

With the PRESS-IT 2.0, holes for PDCs (park distance controlers) can be easily, quickly and precisely punched into bumpers. The holes are punched after painting, because the paint is pulled into the hole and thus, it will not be damaged. The result are clean and smooth edges that do not interrupt the sensitive parking sensors. Over the past years, more punches have been developed to meet the needs of our customers. Hence, we developed punches that fit for all OEMs. When punching the holes, the mandrels can be used as a centering aid - of course, these have the exact diameters of the OEMs.

Benefits

- Easy and professional punching of holes, according to the requirements of most automobile manufacturer
- With the right cutter a custom-fit hole is punched into the bumper

Scope of delivery

- PRESS-IT 2.0 - Punch ø 24
- PRESS-IT 2.0 - Mandrel ø 24

Technical data

Materiel	Tool Steel
Made in	Germany
Diameter Ø	24 mm
Wrench size	15 mm
Application for	Opel / Vauxhall

Dimensions & Weight

L x W x H	9 cm x 2,8 cm x 2,8 cm
Weight	0,23 kg
