

Description

The Bend-it System is a patented tool for bending, which includes a special pneumatic impact hammer as well as different slip-on pillows to bend sheets on cars in a new and easy way. Regarding the innovative relevance this System impresses due to its easy and fast usage. With only one operation, you are able to bend a sheet, like the wheel house of a car. You can do this in only a few minutes and without big expenditures of energy. The Bend-it impact hammer drives the sheet in the fold of the pillow and pushes itself by strokes and vibrations. In order to work more practica- ble and easier, there are several types of pillows with a different profile and diameter depending on form and the feature of the car sheet. By using the Bend-it system, which is a totally new way to repair, you have a more cost-effective, sustainable and easier repair on car sheets like door leaves and wheel houses.

Benefits

- An easy and fast way to bend car sheets
- Easy to handle
- No rework needed
- Low effort

Scope of delivery

- BEND-IT 2.0, pneumatic hammer
- Pillow holder (quick coupler)
- Pillow 45°
- 2 x Pillows 90°
- Manual
- Case with Inlay

Technical data

Working pressure	2 - 3 bar
------------------	-----------

Dimensions & Weight

L x W x H	32,5 cm x 16 cm x 6,3 cm
Weight	5,1 kg
