

T-HOTBOX MECH

Description

The T-Hotbox MECH is a simple to use heating tool for any mechanic. With the proven C Block most nuts and bolts can be heated without having to change any tool heads. It is a long lasting tool without any draw backs. Its small design makes it easy to use in any tight location. The red activation button on the tool with the vibration during the use gives the user a feedback that the tool is activated. The power level can be easily adjusted on the unit from 20% up to 100%. The unit comes with a 5 meter long cable and a case to facilitate the transportation.
