

UNIVERSAL PUNCH- AND RIVETINGSYSTEM PNP 90 XT²

Description

From 2016 we will expand our product line by several interesting tools and accessories. This offers many additional processing options that has not been possible before. In addition to all common riveting processes in the thin sheet range it is possible to process high-strength or sandwich materials. Even the setting of blind rivet nuts as well as working with low work space will no longer be a problem with this equipment.

Benefits

- 2-Circuit-Hydraulik (Push & Pull)
- An existing PNP 90 UN 2.0 can be upgraded by using an upgrade kit
- Easy handling by external pump-system
- Combination with existing riveting tools possible
- Infinite adjustment of the working pressure
- Processing high-strength materials
- Clear order through colour coding and labelling of the rivet inserts

Scope of delivery

Depending on your needs, we provide three different versions on PNP 90 XT²:

1. Basic Version:

This version covers common riveting processes. It includes the Riveting Clamp NB45 with universal handle and also one trolley with tray incl. cover.

2. Standard Version:

This version covers common riveting processes. It includes the Riveting Clamp NB45, NB130, NB240 with universal handle and also one trolley with tray incl. cover.

Technical data

Compressive force	max. 100 kN / 10 T
Tension force	max. 80 kN / 8 T
Travel	50 mm
Length	330 mm
Width	260 mm
Height	213 mm
Operating pressure	max. 600 bar
Pressure (input)	6 bar / 87 PSI

Dimensions & Weight

L x W x H	330 cm x 260 cm x 213 cm
Weight	10,6 kg
